Next 50 MCF.....	0.897 per MCF
Next 360 MCF.....	0.831 per MCF
All over 500 MCF	0.784 per MCF

Formula for calculation: (Usage x BTU Factor* = look up on schedule)
(Gas charge x gas purchase adjustment percentage)

**BTU Factor changes monthly on usage above 0.*

***Gas charge adjustment percentage changes monthly.*

To calculate your gas bill, take your usage as shown on your statement and multiply it by the monthly BTU factor. Take the adjusted usage and run it through the base rate chart above to get your base gas charge. Take the base gas charge and multiply it by the monthly PGA percentage to get your adjustment cost. Add the base gas charge to the adjustment cost to get your actual gas billing. To get the monthly BTU and PGA factors or ask any questions about these calculations contact our billing department.

SEWER FEES & RATES

Residential, Commercial, Industrial Customers

SEWER SERVICE FEES

Inside City Limits:
